

*Join us for our Annual Golf Tournament on
June 20, 2024!*

Dear Friends,

As spring rapidly approaches, we're getting ready once again for our Annual Golf Tournament. We are so appreciative of all who supported last year's event. It was the most successful tournament yet, due to the participation of many wonderful sponsors and players.

That success has helped to fund our many ministry efforts: our weekly radio broadcast (*Psalm 95*), heard on many stations nationwide and overseas, which provides inspiration to those who may not be able to get out to attend church, our recording ministry, our MOM (Music for Our Military) program, and our concert ministry that continues to encourage all who attend.

Like many businesses and charities, the Choir's budget has been hard-hit, not only during the two pandemic years when concert income was practically non-existent, but also during recent inflationary times. We are just so blessed to still be moving forward with our mission to encourage and uplift people through our music -- and our Golf Tournament has played a huge role in enabling us to do that.

We hope you will be able to participate with us by playing or by sponsoring our tournament at some level. The Links at Gettysburg is a fabulous golf course in a beautiful setting. And our tournament usually has many repeat players due to some of our special touches – great tournament prizes, a very tasty lunch, free homemade snacks throughout the day, door prizes, and more. To our previous sponsors and potential *new* sponsors, please know that we would be most grateful for any help you could give us this year. Just visit our website **NationalChristianChoir.org** for more information and sponsorship forms. Player registration forms are also available there (to mail and send a check) or you may register online using a credit card. As always, the Choir is deeply appreciative of all sponsors and players who, together, make our tournament a very special event!

Blessings to all,

Kathy Bowman
Director of Music and Ministries
